Withdrawal	Manager	**Manager:** A manager can withdraw money from any account. Usually done when cash is withdrawn at a bank branch.

No.	Member	Tasks
1.	Test Manager	Manage the whole project Define project directions Acquire appropriate resources
2.	Test	Identifying and describing appropriate test techniques/tools/automation architecture Verify and assess the Test Approach Execute the tests, Log results, Report the defects. Outsourced members
3.	Developer in Test	Implement the test cases, test program, test suite etc.
4.	Test Administrator	Builds up and ensures test environment and assets are managed and maintained Support Tester to use the test environment for test execution
5.	SQA members	Take in charge of quality assurance Check to confirm whether the testing process is meeting specified requirements

Task	Members	Estimate effort
Create the test specification	Test Designer	170 man-hour
Perform Test Execution	Tester, Test Administrator	80 man-hour
Test Report	Tester	10 man-hour
Test Delivery		20 man-hour
Total		280 man-hour

No.	Resources	Descriptions
1.	Server	Need a Database server which install MySQL server Web server which install Apache Server
2.	Test tool	Develop a Test tool which can auto generate the test result to the predefined form and automated test execution
3.	Network	Setup a LAN Gigabit and 1 internet line with the speed at least 5 Mb/s
4.	Computer	At least 4 computer run Windows 7, Ram 2GB, CPU 3.4GHZ

Project Name:	**Ecommerce Platform**	**Created by:**	**Mohideen Abdulkader M**
Version:	1.0	**Creation date:**	01-04-2021
Testing Scenario:	Sign-in/Register	**Executed by:**	
Reference Document:		**Execution date:**	

Test Case ID	Test Case Title	Priority	Pre-condition	Test steps	Expected Result	Post-cond.	Actual res.	Status
EC-SR-TC001	Register using valid email address and valid password	Medium	User has valid email account	1. Open platforms home page 2. Click on "Register" button in upper right corner 3. Fill "email address" field with valid data 4. Fill "password" field with valid data 5. Click on the "Register" button below "Password" field	Welcome screen is shown	Confirmation email is sent to given email	–	Skipped
EC-SR-TC002	Register using valid email address and invalid password (not enough characters)	Medium	User has valid email account	1. Open platforms home page 2. Click on "Register" button in upper right corner 3. Fill "email address" field with valid data 4. Fill "password" field with less than 8 characters 5. Click on the "Register" button below "Password" field	"Password" field turns red, message is shown under the "Password" field: "Invalid password. Please ensure that your password is longer than 8 characters and contains at least one: - capital letter - digit - special character"	–	As expected	Pass
EC-SR-TC003	Register using valid email address and invalid password (without at least one special character)	Medium	User has valid email account	1. Open platforms home page 2. Click on "Register" button in upper right corner 3. Fill "email address" field with valid data 4. Fill "password" field with "Test12345" 5. Click on the "Register" button below "Password" field	"Password" field turns red, message is shown under the "Password" field: "Invalid password. Please ensure that your password is longer than 8 characters and contains at least one: - capital letter - digit - special character"	–	As expected	Pass
EC-SR-TC004	Register using valid email address and invalid password (without at least one capital letter)	Medium	User has valid email account	1. Open platforms home page 2. Click on "Register" button in upper right corner 3. Fill "email address" field with valid data 4. Fill "password" field with "test1234!" 5. Click on the "Register" button below "Password" field	"Password" field turns red, message is shown under the "Password" field: "Invalid password. Please ensure that your password is longer than 8 characters and contains at least one: - capital letter - digit - special character"	–	As expected	Pass
EC-SR-TC005	Register using valid email address and invalid password (without at least one digit)	Medium	User has valid email account	1. Open platforms home page 2. Click on "Register" button in upper right corner 3. Fill "email address" field with valid data 4. Fill "password" field with "TestTest!" 5. Click on the "Register" button below "Password" field	"Password" field turns red, message is shown under the "Password" field: "Invalid password. Please ensure that your password is longer than 8 characters and contains at least one: - capital letter - digit - special character"	–	As expected	Pass
EC-SR-TC006	Register using valid email address and invalid password (too many characters)	Medium	User has valid email account	1. Open platforms home page 2. Click on "Register" button in upper right corner 3. Fill "email address" field with valid data 4. Fill "password" field with more than 20 characters	"Password" field turns red, message is shown under the "Password" field: "Invalid password. Please ensure that your password has less than 20 characters"	–	As expected	Pass
EC-SR-TC007	Register using valid email address and invalid password (forbidden characters)	Medium	User has valid email account	1. Open platforms home page 2. Click on "Register" button in upper right corner 3. Fill "email address" field with valid data 4. Fill "password" field with "Test1234!@" 5. Click on the "Register" button below "Password" field	"Password" field turns red, message is shown under the "Password" field: "Invalid password. Please ensure that your password doesn't contain forbidden characters. Use only allowed special characters: ! ? [ ] ( ) < > / \ % * @ # $ ^ &"	–	Forbidden character accepted, registration successful	Fail
EC-SR-TC008	Register using valid email address and leaving password field empty	Medium	User has valid email account	1. Open platforms home page 2. Click on "Register" button in upper right corner 3. Fill "email address" field with valid data 4. Leave "password" field empty	"Password" field turns red, message is shown under the "Password" field: "Invalid password. Password field cannot be empty"	–	As expected	Pass
EC-SR-TC009	Register using invalid (without "@") email address and valid password	Medium	–	1. Open platforms home page 2. Click on "Register" button in upper right corner 3. Fill "email address" field with "testemail.com"	"Password" field turns red, message is shown under the "email address" field: "Invalid email address format"	–	As expected	Pass
EC-SR-TC010	Registration confirmation via confirmation link sent to email	Medium	User entered valid email address	Successfully finish registration process	Confirmation email is sent to given email within 10 seconds	–	Confirmation email sent after 2 minutes	Fail
EC-SR-TC011	Sign in using valid email address and valid password	Medium	User has valid ecommerce platform account	1. Open platforms home page 2. Click on "Sign in" button in upper right corner 3. Fill "email address" field with valid data 4. Fill "password" field with valid data 5. Click on the "Sign in" button below "Password" field	User's sign in process successful	User's account home screen is shown	As expected	Pass
EC-SR-TC012	Sign in using invalid email address and valid password	Medium	User has valid ecommerce platform account	1. Open platforms home page 2. Click on "Sign in" button in upper right corner 3. Fill "email address" field with invalid data 4. Fill "password" field with valid data 5. Click on the "Sign in" button below "Password" field	"Email address" and "Password" fields turn red, message is shown above "Sign in" field: "Email address or password incorrect"	–	As expected	Pass
EC-SR-TC013	Sign in using valid email address and invalid password	Medium	User has valid ecommerce platform account	1. Open platforms home page 2. Click on "Sign in" button in upper right corner 3. Fill "email address" field with valid data 4. Fill "password" field with invalid data 5. Click on the "Sign in" button below "Password" field	"Email address" and "Password" fields turn red, message is shown above "Sign in" field: "Email address or password incorrect"	–	As expected	Pass

Test Case ID	Test Case Title	Priority	Pre-condition	Test steps	Expected Result	Post-condition	Actual result	Status
[illegible]	Adding valid number of items to cart	Medium	User is signed in	1. Open platform's home page 2. Choose any item and click "Add to cart" button 3. Click on the "Cart" button located at the top right corner 4. Change the quantity of the item to less than the number of items available in stock and click on the "Recalculate" button located under the	Cart's value is properly recalculated	New order value is shown	As expected	Pass
[illegible]	Adding invalid number of items to cart	Medium	User is signed in	1. Open platform's home page 2. Choose any item and click "Add to cart" button 3. Click on the "Cart" button located at the top right corner 4. Change the quantity of the item to more than the number of items available in stock and click on the "Recalculate" button located under the	"Quantity" field turns red, message is shown under the "Quantity" field "Not enough items in stock"	–	As expected	Pass
[illegible]	All mandatory fields are marked with "*" on the products order page	Low	User is signed in	1. After adding item to cart, click on the "Place an order" button at the bottom of the cart page 2. Check if each mandatory field (Name, shipping address, phone number, payment method) is marked with "*" symbol	A "*" symbol is shown next to every mandatory field	–	–	Skipped
[illegible]	Leaving mandatory fields empty	Medium	User is signed in	1. After adding item to cart, click on the "Place an order" button at the bottom of the cart page 2. Leave mandatory fields empty and click on the "Proceed to payment" button located at the bottom of the page	All mandatory fields turns red	–	As expected	Pass
[illegible]	Leaving optional fields empty	Medium	User is signed in	1. After adding item to cart, click on the "Place an order" button at the bottom of the cart page 1. Leave optional fields empty and click on the "Proceed to payment" button located at the bottom of the page	User is successfully redirected to payment page	–	As expected	Pass
[illegible]	Filling phone number field using incorrect format	Medium	User is signed in	1. After adding item to cart, click on the "Place an order" button at the bottom of the cart page 2. Fill the "Phone number" field with incorrect format (e.g. 123-456-789)	"Phone number" field turns red, message is shown under the "Phone number" field, "Incorrect format, please enter phone number in xxxxxxxxx format"	–	As expected	Pass
[illegible]	Filling zip code field using incorrect format	Medium	User is signed in	1. After adding item to cart, click on the "Place an order" button at the bottom of the cart page 2. Fill the "Zip code" field with incorrect format (e.g. 12345)	"Zip code" field turns red, message is shown under the "Zip code" field "Incorrect format, please enter zip code in XX-XXX format"	–	As expected	Pass
[illegible]	Discount voucher drops order price correctly	Medium	User is signed in	1. Open platform's home page 2. Choose any item and click "Add to cart" button 3. Click "Cart" button located at the top right corner 4. Fill the "Voucher" field with valid code and click on the "Recalculate" button located under the items list	Cart's value is properly recalculated	New order value is shown	–	Blocked
[illegible]	Shipping cost change to 0 after order price achieves certain value	Medium	User is signed in	1. Open platform's home page 2. Choose any item and click "Add to cart" button 3. Click "Cart" button located at the top right corner 4. Change the quantity of the items so the total cart value exceeds 100 PLN and click on the "Recalculate" button located under the items list	Cart's value is properly recalculated	Shipping cost drops to 0	Shipping cost is still at 9 PLN	Fail
[illegible]	Changing shipping method changes shipping cost	Medium	User is signed in	1. Open platform's home page 2. Choose any item and click "Add to cart" button 3. Click "Cart" button located at the top right corner 4. Change the shipping method from "Standard" to "Overnight" and click on the "Recalculate" button located under the items list	Cart's value is properly recalculated	Shipping cost change from 9 PLN to 15 PLN	As expected	Pass
[illegible]	Confirmation email is sent after completing an order	Medium	User is signed in	1. Open platform's home page 2. Choose any item and click "Add to cart" button 3. Click "Cart" button located at the top right corner 4. Choose item's quantity and shipping method and click on the "Place an order" button at the bottom of the cart page 5. Fill all the mandatory fields with valid data and click on the "Proceed to payment" button located at the bottom of the page 6. Complete the payment	Confirmation email is sent within 10 seconds	After completing payment user is automatically redirected to the "thank you" screen	As expected	Pass

Test Case ID	Test Case Title	Priority	Pre-condition	Test steps	Expected Result	Post-condition	Actual result	Status
[illegible]	A list of suggestions shows after entering first 3 characters in search bar	Medium	There are at least 10 items available	1. Open platform's home page 1. Click on the search bar located at the top of the page 3. Enter first three characters of searched item	A list of 10 suggested items is shown, sorted by relevance	–	A list of suggested items appears after entering first character	Fail
[illegible]	Advanced searching button works correctly	Medium	–	1. Open platform's home page 2. Click on the "Advanced search" button located under the search bar	A search page with filtering options is open	–	–	Blocked
[illegible]	Category list filter works correctly	Medium	–	1. Open platform's home page 2. Click on the "Advanced search" button located under the search bar 3. Enter item's name in the search bar 4. Choose wanted category from the drop-down category list 5. Click "Search" at the bottom of the page	A list of relevant items in chosen category is shown	–	As expected	Pass
[illegible]	Sorting by price up filter works correctly	Medium	–	1. Open platform's home page 2. Click on the "Advanced search" button located under the search bar 3. Enter item's name in the search bar 4. Choose "Price up" option from the drop-down sorting list 5. Click "Search" at the bottom of the page	A list of relevant items sorted by price up is shown	–	As expected	Pass
[illegible]	Sorting by product rating down filter works correctly	Medium	–	1. Open platform's home page 2. Click on the "Advanced search" button located under the search bar 3. Enter item's name in the search bar 4. Choose "Rating down" option from the drop-down sorting list 5. Click "Search" at the bottom of the page	A list of relevant items sorted rating down is shown	–	As expected	Pass
